

## DOWSING ROD

*Wondrous Item, Legendary (requires attunement)*

When this y-shaped stick is gripped with both hands and the command word is uttered, the long end will point the way towards something the user wants that is in the rod's view. The rod's view includes any underground area within a 1 mile, but excludes areas blocked by any thickness of lead. The rod will continue to point whenever it is gripped with both hands for 1 hour.

The rod can be used to find the largest deposit of a particular type of metal, ore, liquid, or gemstone, or it can find the largest heat source. It can also be used to find the nearest underground tomb, unmarked grave, graveyard, or cavern (open area larger than 20 cubic feet). And it can also be used to locate an object which had been in the user's possession sine time in the past year.

If the desired thing is not in its view, the rod will become inert, but it will begin pointing if such a thing comes into its view within the hour. It can also switch directions if something new comes into its view that is a better example of what is desired. Once used, the rod cannot be used again until the next dawn.
